KEY CONTROL SYSTEMS

DOUBLE KEY FILE/SECURITY SYSTEM

- Sturdy, welded steel with piano-hinged door and key panels
- Heavy-duty, 20-gauge steel body and 18-gauge steel door
- Mount cabinet on wall (mounting screws included) or use on table or shelf
- Cabinet includes a disc-tumbler lock with 2 keys
- Includes: red octagon key tags (model **OG894**) and white oval key tags (model **OG895**) same amount as key capacity, cross reference key guide, key loan record sheet, key receipt slip, brass key receipt holders and key collection envelopes
- The double key system insures proper security and avoids key loss
- **How it works:** the master key is fastened to the red tag and filed permanently on a labelled hook; duplicate keys are fastened to white tags on the same hook; each key is indexed in three ways: by hook number, alphabetically by what the key opens and numerically
- When a key leaves the system, a receipt tag is filled out and hung with the master key and all loans are recorded in the key loan record sheet
